WYNOT Voices

Ignite Your Voice, Power Your Future

A transformative youth leadership program in Eagle Pass, Texas—where young trailblazers learn STEM skills, media storytelling, and personal brand building to become tomorrow's change-makers.

At Miss Eagle Pass Empowerment Initiative, Inc. (MEPEI), our WYNOT Voices program empowers students in Eagle Pass and the Rio Grande Valley region to step into their full potential. Whether you're curious about coding, creating digital media, or building a standout personal brand, WYNOT Voices gives you the tools, mentorship, and community to thrive.

Through hands-on workshops in STEM (science, technology, engineering & math), guided media-production labs (podcasting, video, branding), and leadership mentoring, participants discover their unique voice and learn to amplify it. Our bilingual-friendly, culturally responsive programming ensures every young person—especially Latina leaders and Gen Z/Gen Alpha girls—can shine.

GREETINGS

Located in Eagle Pass, TX, our program taps into local energy and talent while preparing members for national success. With a focus on youth leadership program, digital media training for teens, STEM enrichment after-school Eagle Pass, and personal branding for Gen Alpha, we're building the next generation of motivated, community-centered leaders.

TEXAS

WHY WYNOT VOICES?

- **Develop confidence and creative skills in STEM and media.**
- **Craft a dynamic personal brand and digital story that stands out.**
- **Connect with mentors, peers and professionals in Eagle Pass and beyond.**
